

SHREYA NALAWADE

SOFTWARE DEVELOPER | AI EDUCATOR & TECHNICAL MENTOR

Mumbai, India | +91 7499735987 | shreyanalawade882@gmail.com | GitHub

PROFESSIONAL SUMMARY

Software developer with 3+ years of experience guiding learners through AI-native application building in AWS Educate and open-source programs. Skilled in AI tools including Claude, Cursor, n8n, and LangChain. Experienced in building agentic systems, REST API integrations, and cloud deployments. Honours in Artificial Intelligence from University of Mumbai. Passionate about turning complex technical concepts into clear, hands-on learning experiences.

WORK EXPERIENCE

DevRel Engineer

AWS Educate & Open Source Programs (Remote)

June 2023 – June 2026

- Delivered comprehensive training across Data Analytics, Data Science, AI & ML domains, equipping learners with both theoretical foundations and practical implementation skills.
- Designed industry-relevant curriculum aligned with current market trends, covering AI tool integration, MVP development, and cloud deployment using platforms like Claude, Cursor, LLM-based RAG pipelines, and AI tools like Kiro.
- Recorded structured learning sessions and developed reusable resources including guided walkthroughs, documentation, and reference materials to support asynchronous learners.
- Conducted assignments, quizzes, assessments, and simulations to evaluate learner progress and reinforce key concepts across each module.
- Mentored students on real-world projects and case studies, providing hands-on industry project experience and building a strong understanding of current market tools and trends.
- Supported interview preparation and placement readiness through resume reviews, mock sessions, and project portfolio feedback on GitHub repositories and deployed applications.
- Authored technical articles and tutorials on developer communities (Dev.to, Hashnode) covering AI tools, RAG pipelines, and LLM integrations to grow developer awareness and community engagement.
- Moderated and hosted technical sessions at meetups, webinars, and community events, facilitating discussions on emerging AI technologies and developer best practices.

Freelancer – AI Data Trainer

ScaleAI

April 2024 – Aug 2024

- Developed engaging content for diverse AI training projects, adapting style to meet client and software development needs.
- Conducted thorough research to ensure accuracy and relevance in all training deliverables.

SDE Engineer

House of Couton Pvt Ltd

Nov 2023 – April 2024

- Built and integrated ML models into production-grade applications using React and Python (TensorFlow, PyTorch), improving recommendation accuracy by 28% and reducing model inference latency by 20%.
- Streamlined secure model deployment using JWT and OAuth; implemented containerisation via Docker, boosting development-to-deployment efficiency by 35%.

Web Developer

TCR Innovations

April 2023 – Aug 2023

- Designed and developed a scalable Booking Portal using React, Node.js, Express.js, and MongoDB, improving booking efficiency and API response time by 35% through optimised database queries.
- Enhanced UI/UX with Tailwind CSS, Material-UI, and React Router; 40% of development efforts on responsive dashboards, increasing admin interaction by 25%.
- Implemented CI/CD pipeline and automated deployment to Vercel.

EDUCATION

Bachelor of Computer Engineering

University of Mumbai

GPA: 9.5/10

Honours in Artificial Intelligence

SKILLS

Languages: Java, JavaScript, Python, SQL, C++, C, Bash, HTML, CSS

Databases: MySQL, MongoDB, PostgreSQL, Firebase

Frameworks & Tools: Django, MERN Stack, Selenium, Docker, Git, GCP, AWS, Kubernetes

AI Tools: Claude, Cursor IDE, n8n, LangChain, OpenAI API, HuggingFace, TensorFlow, PyTorch

AI/ML: Agentic Workflows, API Integrations, Prompt Engineering, RAG Pipelines, Cloud Deployment

Soft Skills: Communication, Mentorship, Curriculum Design, Technical Presentation

AWARDS & ACHIEVEMENTS

- Finalist – State Level Avishkaar 2023
- 2nd Runner Up – Gen AI Track, BPIT Hackathon (Feb 2023)
- Semi-Finalist – Tata Imagination Challenge & Flipkart Grid 5.0 (Top 5%), Dec 2023
- 250+ LeetCode problems solved
- 5+ stars on HackerRank
- Top 10% – Global Coding Contest, Dec 2022
- Honours in AI – University of Mumbai
