EDUCATION

Pune Institute of Computer Technology (PICT) <i>B.E. - Information Technology - CGPA - 9.33</i>	2023-2026
Government Polytechnic Nashik <i>Diploma in Computer Engineering - 94.4 %</i>	2021-2023

SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript, SQL
Frameworks: Next.js, React, Node.js, Express.js
Databases: PostgreSQL, MongoDB, MySQL
Tools/Devops: Docker, CI/CD, AWS, NGINX, SSH, Git, GitHub, Turborepo
Other: Microservices, Unix/Linux, TCP/IP, Distributed Systems, REST APIs

EXPERIENCE

Uptiq Jan 2026 – Present
Software Development Engineer (SDE)

- Built a **Database Explorer** module end-to-end – backend query validation/routing service plus frontend UI – giving users direct, safe query access to their connected databases.
- Fixed span-nesting bugs in the platform’s **distributed tracing** layer and added cursor-based pagination to the **Loki/Grafana**-backed audit log service, making cross-service request traces queryable at scale.
- Designed secure **signed URL-based upload/download pipelines** for RAG document handling, plus file-upload signed-URL support for agent workflows.
- Implemented bidirectional **GitHub/GitLab repository sync** (push/pull) for AI-generated apps, with a unified external-app import API and real-time socket events on git provider connect.

Fluffyn Technologies Pvt. Ltd. May 2025 - Sep 2025
Full Stack Developer Intern

- Refactored **Golang backend** using **microservices** and **worker queues** to enable asynchronous file uploads to Azure Cloud, cutting **average upload time by 40%** and improving throughput for large media files.
- Built a **Delivery Agent Web App (Next.js)** used by **100+ agents daily** featuring real-time order tracking and status updates; integrated with **Golang backend** and **WebSocket-based updates**.

ValetX Mar 2025 - Jun 2025
Full Stack Developer Intern

- Optimized **Node.js + PostgreSQL** backend APIs and built a **React Native valet app** with **QR scanning**, **OCR number plate detection**, and **real-time notifications** via Firebase.

Pune Institute of Computer Technology (PICT) Jul 2024 - Sep 2024
Software Developer Intern

- Built a scalable MERN stack-based **Quiz Platform for children** with **hearing and speech impairments**, integrating **accessibility-focused features** like image-based MCQs, visual cues, and animations.
- Deployed the platform across **10+ schools**, benefitting **500+ students**, as part of the RGSTC initiative.

PROJECTS

- SwiftPay: Digital Wallet** - NextJS, React, PostgreSQL, Docker, Turborepo, JWT
- Engineered a **feature-rich digital wallet** application using **Next.js with PostgreSQL**, containerized with **Docker** for efficient deployment.
 - Integrated secure **webhooks** to deliver **real-time transaction notifications** and enhance **fraud detection**, improving overall **payment security** and responsiveness.
- AI Medical Scheduling Agent** - Python, LangChain, LangGraph, PostgreSQL, OpenAI LLM
- Developed a multi-agent AI system for medical appointment scheduling, integrating **natural language processing**, patient data management, and automated reminders.

ACHIEVEMENTS AND EXTRACURRICULARS

- **Amazon ML Summer School 2025**, selected from 10,000+ applicants nationwide
- **First runner up**, TechFiesta International **Hackathon** (PICT INC’23)
- **Finalist**, Mastercard Code for Good **Hackathon**
- **Joint Secretary**, PICT IEEE Student Branch
