SUMMARY — Senior Data Analyst with 5 years of experience building personalization and decisioning systems using experimentation and predictive analytics in financial services.

CORE SKILLS AND EXPERTISE

Languages SQL, Big Query, DAX, Power Query, Python, Bash, SPSS, R
Technologies Power BI, Tableau, Google Analytics, Snowflake, Microsoft Excel, Big query, Git, MicroStrategy
Concepts Statistical Analysis, Customer Analytics, A/B Testing, Hypothesis Testing, MMM, Incrementality measurement, Machine Learning, EDA, Marketing Analytics, Behavior Analysis, Problem Solving, Regression, Teaching
Other skills Stakeholder Collaboration, Insight generation, Storytelling, Leadership, Curriculum Development

EXPERIENCE

American Express

Sep 2024 – Present

Assistant Manager - Site Marketing analytics

Gurgaon, India

- Built a real-time decisioning and segmentation engine to identify users with high commercial card intent and clearly communicate conversion lift from personalized digital journeys, driving \$25M+ incremental revenue.
- Developed decision-tree based real-time scoring models using behavioral, temporal, device, and identity enrichment features, explaining model logic for test vs control outcomes, resulting in 6% uplift in prospect and 34% uplift in existing customer commercial card applications.
- Designed a multi-channel offer personalization framework (Site, Homepage, Paid Search) to evaluate cross-channel attribution and incrementality, presenting insights in a structured, step-wise manner, generating \$10M incremental revenue through improved acquisition efficiency.
- Enhanced a real-time spend prediction model by engineering digital footprint and IP-level behavioral features, translating complex outputs into clear insights to optimize campaign effectiveness, budget allocation, and ROI.
- Created an IP-based detection framework to identify offer-gaming and anonymous users (incognito/cookie deletion), improving data quality and clearly documenting logic behind detection and evaluation.
- Partnered with global stakeholders across marketing, product, engineering, and external data vendors to communicate experimental results and validate impact via lift studies, A/B experimentation, and attribution analysis.

Fractal Analytics

Aug 2021 – Sep 2024

Analytics Consultant

Gurgaon, India

- Led discovery sessions with executive stakeholders, breaking down complex KPI frameworks into clear, structured components across supply chain, finance, HR, and ESG domains.
- Designed enterprise-grade data models and Power BI solutions for global CPG clients, presenting insights through dashboards and clear narratives, reducing manual reporting effort by **70%** and saving **10+ hours per reporting cycle**.
- Delivered end-to-end BI deployments including UAT, production releases, and automated refresh pipelines, documenting processes and ensuring clarity, reliability, and stakeholder understanding.
- Conducted conversion funnel and marketing performance analysis for a leading e-commerce client, translating complex data patterns into simple, actionable explanations to improve conversion rates.
- Designed and delivered the **"Insights of Power BI"** Coursera course with 50,000+ enrollments and 4.6+ rating, creating structured learning content and breaking down complex BI concepts into easy-to-understand lessons.
- Led multiple department-level workshops to upskill colleagues in Power BI and SQL, explaining technical concepts with clarity and improving team-wide analytical understanding.

EDUCATION

Department of mathematical sciences, University of Delhi

Aug 2019 - Jun 2021

Msc in Operational Research

CGPA : 8.15

Ram lal anand college, University of Delhi

Jul 2016 - Jun 2019

Bsc in Statistics

CGPA: 7.79

AWARDS / RESPONSIBILITIES

- Best Icebreaker speech and Auxiliary role award - Toastmaster
- Won Advance Power BI workshop challenge
- Led Data vizualization community at Fractal Analytics and published blog on data modeling best practices

CERTIFICATIONS

- Microsoft Power BI Data Analyst PL-300 certified
- Fractal Advanced SQL workshop
