

Hayavadan G Nargund

Bangalore | hayavadan.g.n@gmail.com | +91-9448679692 | <https://www.linkedin.com/in/hayavadan-g-n/>

AI & Machine Learning Trainer with 17+ years of experience designing and delivering industry-aligned training programs in Machine Learning, NLP and Generative AI. Proven track record of training 1000+ learners and enabling 500+ professionals to transition into AI roles. Specialized in simplifying complex AI concepts into practical, hands-on learning experiences and driving enterprise adoption of AI solutions. Experienced in curriculum design, corporate L&D, and advanced GenAI applications including LLMs and Retrieval-Augmented Generation (RAG).

SKILLS

- **AI/ML Training:** Machine Learning, NLP, Generative AI, LLMs,
- **Tools:** Python, TensorFlow, Scikit-learn, Hugging Face, OpenAI API, OpenRouter API
- **GenAI:** RAG, LangChain, LangGraph, Prompt Engineering, FAISS, ReAct
- **MLOps:** CI/CD, vertex AI, GCP
- **Data:** Pandas, NumPy,

EXPERIENCE

Great Lakes E Learning Services Private Limited (GL)

Bangalore, INDIA

Senior Data Scientist

Nov 21 to Till Date

- Delivered 1000+ hours of training in ML, NLP, and Generative AI.
- Trained 500+ professionals across domains in AI/ML upskilling programs.
- Designed hands-on projects including RAG-based applications using LLMs.
- Collaborated with SMEs to develop industry-aligned curriculum.
- Led corporate training initiatives for enterprise clients.
- Improved learner completion rate by 94% through structured mentoring.

iNurture Education Solutions Private Limited.

Bangalore, INDIA

Subject Matter Expert in Data Science

May 21 TO Nov 21

- Developed AI/ML curriculum aligned with industry needs.
- Conducted Faculty Development Programs (FDPs).
- Enabled job readiness for students through project-based learning.

Rajarajeswari College of Engineering Bangalore.

Bangalore, INDIA

Assistant Professor

July 10 to April 21

- Taught 10+ subjects including ML, Big Data, Python.
- Mentored 100+ student projects in ML and AI.
- Member of Indian Society for Technical Education (MISTE- LM69739).
- Serving as a Peer-Coach and Mentor to Students.
- Led the Department of MCA, managing a team of faculty and overseeing academic planning, curriculum development, and execution.
- Worked as a VTU flying squad Chairman and member, question paper setter.

DayanandaSagar College of Engineering Bangalore.

Bangalore, INDIA

Lecturer

July 08 to Feb 10

- Handled subjects like OOAD, OOMD, OR, C, C++.

EDUCATION

M.C.A

Department of Computer Science Karnataka University, Dharwad.

DHARWAD, INDIA

May 04 to June 07

B.A (Computer Applications, Statistics, Economics)

M .M Arts & Science college, Sirsi.

SIRSI, INDIA

May 01 to May 04

ADDITIONAL INFORMATION

Certification:

- The advanced level program on MLOps Specialization course using the AWS, Azure, GCP, and open-source tools- Psitron Tech Jan 2025
- Deep Learning with Python- Start-Tech Academy, Nov 2021
- Machine Learning with Python-Start-Tech Academy, April 2021
- Fraud Analytics Course - Jigsaw Academy, Bangalore, May 2016
- Wiley Jigsaw Certified Big Data Specialist -Jigsaw Academy, Bangalore, July 2016
- Analytics foundation & Data science with R - Jigsaw Academy, Bangalore, Dec 2015

Analytics projects.

1. Developed an LLM-powered ticket classification system, replacing keyword-based logic with context-aware NLP models, Classified support tickets into Incident, Request, Problem, and Change categories with improved accuracy 85%, Reduced misclassification and response time, improving customer support efficiency, Implemented solution using [LLMs, LangChain, prompt engineering, embeddings].
2. Built an AI-powered RAG-based solution to transform complex health insurance documents into clear, user-friendly insights. Enabled users to query policies in natural language, improving transparency and reducing risk of claim-related misunderstandings.
3. Developed an NLP classification model for sarcasm detection using the features provided in the dataset. During this, explore NLP concepts and models. Further, evaluate and finalize the best modelling approach for the given dataset. Evaluated models on F1_score: which combines the precision and recall of a classifier into a single metric by taking their harmonic mean.
